

Call for Proposals

Great Lakes
Fishery Commission

The Great Lakes Fishery Commission is now soliciting pre-proposals and pilot project proposals for the 2026 funding cycle for the Fishery Research Program and Sea Lamprey Research Program.

Typical funding range: \$20,000 - \$150,000 per year

Who We Are

The Commission's research programs comprise a portfolio of basic (discovery, descriptive, or hypothesis-generation) and applied (descriptive or hypothesis-driven) research in support of sea lamprey control and Great Lakes fishery management. This call for proposals seeks research projects that show potential to make significant contributions in these fields.

Learn more about funding opportunities

Submission

Pre-proposals must be submitted through the online portal.

Evaluation

Relevance to the GLFC and information needs identified by the research themes and the Sea Lamprey Control Board and Council of Lake Committees.

Webinar

Join the webinar on November 22, 2024, at 1:00 PM EST to learn more. Register: <https://us02web.zoom.us/j/84948826532>

Special Topics

Fishery Research Program

- Human dimensions
- Indigenous-led research
- Coregonine conservation and restoration

Sea Lamprey Research Program

- Impacts of climate change on sea lamprey control
- Population level effects of lampricides on non-target organisms

Timeline

January 15
Pre-proposal
& pilot submission

March 31
Full proposals
solicited

June 01
Full proposal
submission

September 30
Board
recommendation

December
Award decision
